

IRONWORKER III KIT SERIES

Turn to the
Pros

- **Cutting Attachments** feature solid forged heads that resist damage from abuse and flashbacks. Solid Brass cutting lever flips forward for fast convenient and positive connecting to handle even when wearing gloves.
- **Model 85 Torch Handles** feature silver-brazed, twin-tube construction for safety and durability and easily replaceable Flashguard® checkvalves.
- **Regulators** are equipped with an encapsulated Teflon® seat for safety and extended service life and have a 7-year warranty.
- **Two-piece Cutting Tip** is easy to clean and produces higher preheats and is manufactured with a copper shell to withstand higher heat with less damage to the tip.
